## **Brief introduction**

Professor Eugene Kim completed the medical school, anesthesiology residency training program in Eulji university Hospital, Korea and finished a clinical fellowship in neuroanesthesia at the Seoul National University Hospital. Currently, she works as an associate professor at Hanyang university Seoul Hospital.

She is currently working as an associate professor at Hanyang University Medical Center and her research interest is to apply neuroscientific method to Anesthesiology and pain medicine. She has published numerous papers related to cognitive and nociception monitoring using EEG and pupil measurement and is currently studying the long-term effects of opioid analgesics before and after surgery.
