*MB BCh BAO, M.Med Anaest*

---

Dr Rufinah Teo is an Associate Professor and Senior Consultant at the UKM Specialist Children's Hospital, Kuala Lumpur. She has special interests in paediatric-related research, in particular pharmacogenetics and its application. Her work has been published in international journals including a joint-collaboration research, published in The Lancets recently. She is currently the Research and Publication Coordinator in her Department and is the Section Editor for Malaysian Journal of Anaesthesia.

She dedicated her work as paediatric anaesthesiologist in teaching sessions including workshops, exam preps and hands-on in the operation theatres for both undergraduate and postgraduate trainees. She is currently the Honorary Treasurer for the Malaysian Society Paediatric Anaesthesiologists and has been actively involved as an ACLS Instructor for the past 8 years.
